**Statistics of COVID-19 infection cases (2021-2022 Academic year)**

Statistics of COVID-19 infection cases (April 26 – May 2, 2021)

Tenri University would like to inform you about the status of outbreaks of COVID-19 cases confirmed so far at our University between April 26 and May 2.

(At Tenri University, the case is announced on the webpage only when a person who tested positive for COVID-19 uses the facilities related to our University.)

Newly infected: 3 people

We sincerely pray for the speedy recovery of those who have been confirmed to be infected.

We will continue to work to prevent the spread of infection throughout the University in cooperation with related organizations such as health centers.

We ask for your understanding and consideration for respecting the human rights and protecting personal information of students and related parties who have been found to be positive.
