

March 29, 2022 【to All Students and Faculty Members of Tenri University】

Regarding class format after April 1, 2022 (Friday)

Tenri University Novel Coronavirus Emergency Response Headquarters
Director-general (President) Noriaki Nagao

We have decided the following at the 40th Novel Coronavirus Emergency Response Headquarters Meeting:

1. Regarding the lowering of the phase of the activity guideline

Comprehensively judging the current infection status in Nara Prefecture and the neighboring prefectures, Tenri University will set the activity guideline phase to “II” from April 1 (Friday).

As a result, classes from April 7 (Thursday) will be face-to-face for classes with 100 or less students.

At the same time, Tenri University has revised a part of the activity guideline. The revised parts are shown in red in the chart below

[Tenri University activity guideline in relation to the spread of COVID-19 \(Revised edition as of April 1, 2022\) \(PDF\)](#) 

2. Regarding the “Request for Class Consideration”

The online class attendance system based on the notification of the “Request for Class Consideration,” which was implemented until last year, will not be implemented in the 2022-2023 school year.

3. Regarding limits to the usage time of on-campus facilities, and other restrictions

For information on using each facility on campus, please refer to the chart regarding the use of on-campus facilities below.

Since the infection of the COVID-19 has not ended, please continue to take proper measures to prevent infection as before.

Students, faculty, and staff are requested to fill out the health checklist and behavior record chart.

4. Please continue to take thorough measures to reduce the risk of infection and give consideration to infection prevention.

The number of infected people is decreasing nationwide, but infections have been reported even after vaccination has been completed. Each one of us must constantly take infection control measures seriously and break the chain of infection. The Nara Prefecture homepage linked below calls for thorough efforts to reduce the risk of infection and consideration for infection prevention. Please refer to the link and be sure to be responsible in taking preventive measures for infection on your own.

5. If you feel unwell

Also, if you feel unwell, please check the “<Tenri University> Coronavirus Infectious Disease Response Flow Chart” and contact the instructor in charge of the class or the Student Affairs Section to consult about the class you are taking
